

Whole Being Evolution Map Description

The Whole Being Evolution Map outlines in discriminative detail, the story of Human Spiritual Awakening from Source to Source.

It describes the emergent Whole Being Paradigm of Human Spiritual Evolution in which spiritual awakening opens in, as, and through the field of embodied existence (Infinite Being), is fully inclusive of transcendent awareness (Infinite Consciousness), and completely encompasses non-separate interconnectedness (Infinite Love).

This is *full spectrum human awakening* that brings new whole being richness and fulfillment to the spiritual cognitions, revelations, and scriptures of past generations.
